FEATURES:

ANGLED BLADE SURFACE

Designed to create upward kick resistance, the angled blade surface of our Hydroblade Fins help to ensure that athletes work hard to build power and proper technique in the upsweep of their kick.

CHANNEL SIDE RAILS

Unique in design, these one-of-a-kind side rails work in tandem with the angled blade surface of the fin to amplify a swimmer's power in the water. In increasing leg strength and capacity in the upsweep, TYR Hydroblade Fins significantly support athlete development.

ROUNDED EDGES

Engineered to accommodate swimmers of all foot sizes, the soft, rounded edges of our Hydroblade Fins reduce friction and ensure comfort in the foot cavity, while also providing additional mobility in the ankle.

HEEL STRAP DESIGN WITH PULL TAB

To allow for easy on/off wear and quick transitioning, each pair of Hydroblade Fins includes a unique heel strap design with convenient pull tab.
